Folio3's approach to the project was detailed & planned. Based on the requirements, they were able to deliver quickly. We also appreciate the ability to adapt to changes quickly & provide solutions to issues that arose. During the project, I know it was challenging for the Folio3 team to work with multiple external resources, particularly to convey what was required and how to proceed with the task on hand promptly"

Thank you very much for an excellent executed project for the Shopify Connectors for SWE & EU! It was a pleasure to work with Folio3. The deadlines have been tough, I and the LY team appreciate all the hard work and accuracy. I especially appreciate Folio3's project management, the team's technical skills, as well as a clear and rapid communication. Folio3 has great attention to detail as well as the ability to see the whole picture - which is crucial for a successful ERP integration.

I recognize the overall effort applied throughout the project; no doubt the Folio3 team's attention to detail & execution is top-notch. I was very impressed with the level of problem-solving skills, coding techniques, & functional logic applied to achieve our demands for a seamless ERP/webstore experience. Kudos to Folio3 for their polite demeanor, responsive, & engaging communications & clear answers during every aspect of the collaboration. Working alongside the Folio3 team has been a fantastic experience! I highly recommend Folio3.
